

Intellectual Property Protection Declaration

Filed by: Spencer Southern

Entity: Southern Star Pro. Studios LLC

Date: May 22, 2025 – 6:00 AM (EST)

I. Declaration of Original Intellectual Property

I, **Spencer Southern**, founder and sole member of **Southern Star Pro. Studios LLC**, formally declare the authorship, sole ownership, and original development of the following proprietary systems and protocol-based innovations:

1. **Mint-to Logic™** – A causality-based digital validation protocol designed to govern digital actions through a lifecycle of minting, tracking, burning, and proof. It prevents fraud, verifies truth, and governs AI and data systems ethically.
 2. **Pro-Logic Shield™** – A digital defense system designed to provide irreversible protocol-layer validation of identity, action, and authorization. It serves as a payload-level and infrastructure-grade tool for public and defense applications.
 3. **ValiPass™** – A verification and ticketing framework leveraging Mint-to Logic principles for QR code access validation, proof of presence, and lifecycle control, eliminating duplication and unauthorized re-use.
 4. **Shepherd Coin™** – A value artifact minted only when an action or data point completes a valid causal path. It acts as proof-of-fulfillment and a reward unit within ethical digital systems.
 5. **The Shepherding Method™** – A multi-layered ethical AI and infrastructure framework that integrates causality, lifecycle validation, and adaptive protocol systems for decentralized truth enforcement and digital governance.
-

II. Timestamped Evidence and Documentation

The above innovations have been publicly and privately documented through the following:

- **Provisional patent filings** with the United States Patent and Trademark Office (USPTO)
- **Public authorship records** posted across platforms including LinkedIn, X (Twitter), and multiple digital forums
- **Offline documentation** including external drives, printed schematics, journals, and legal folders
- **Academic timestamping** through enrollment and publication as a student at Kellogg Community College, with active transfer to Western Michigan University
- **Digital submissions** to national innovation competitions such as Verizon's Forward for Good and other government or dual-use programs
- **Email logs and cloud backups** that document origin, development, and iterations

III. Ownership Statement

All listed systems and any derivatives remain under **exclusive ownership and development control** of the undersigned, **Spencer Southern**. No license, equity, or transfer of intellectual property has been issued or granted.

Any attempt to claim, replicate, suppress, or interfere with these assets will be considered an intentional violation of U.S. intellectual property laws and subject to full legal enforcement under federal and state protection statutes.

Signed,

Spencer Southern
